We're Expand Energy. Your Neighbor. Your Partner.

Expand Energy, formed in 2024 through the combination of Chesapeake Energy and Southwestern Energy, is North America's largest natural gas producer and a leading producer globally.

Our natural gas assets strengthen our local communities by generating quality jobs, royalty payments, tax revenue and charitable donations.

Above all, we are committed to providing a safe and environmentally responsible work setting for our employees, contractors, landowners and the communities where we operate.

In 2007,

Expand discovered and produced the first commercially viable Haynesville Shale well.

Today,

our production base is 1.7x larger than the next largest Haynesville competitor.
