We're Expand Energy. Your Neighbor. Your Partner.

Expand Energy, formed in 2024 through the combination of Chesapeake Energy and Southwestern Energy, is North America's largest natural gas producer and a leading producer globally.

Our natural gas assets strengthen our local communities by generating quality jobs, royalty payments, tax revenue and charitable donations.

Above all, we are committed to providing a safe and environmentally responsible work setting for our employees, contractors, landowners and the communities where we operate.

For nearly 20 years, Expand has operated continuously in the Marcellus Shale, establishing itself as an early pioneer, one of the first large operators and among the largest leaseholders.
