

Chesapeake Wins Best ESG Reporting Award

Recently, Chesapeake was recognized for Best ESG Reporting among small- to mid-cap companies by *IR Magazine*. The honor, voted on by a panel of expert judges made up of investment professionals and *IR Magazine* editorial team members, was part of *IR Magazine*'s annual awards program during which more than 400 investor relations professionals gathered in New York City.

A team of Chesapeake colleagues, including Maggi Young, were in person to accept the award.

"This award celebrates more than just our sustainability report. It honors the passion and dedication of the Chesapeake team as we deliver on our commitment to safe and sustainable operations," said Young, Director of Environmental Policy and Sustainability. "We share this recognition with the many team members who contribute to our sustainability reporting process and work to communicate transparently with our stakeholders."

Our 2022 sustainability and climate reports are available [here](#). Other companies nominated for the award included Diversified Energy Company, First Advantage, ITT, Matador Resources Company and Zurn Elkay Water Solutions.
